

## Land And Sea – The 50<sup>th</sup> Anniversary Season

We are fortunate to have the work completed by our committee, featured on Land and Sea.

Our goal is to preserve our intangible cultural heritage through community gatherings. Each event strongly features local food and music, alongside great story telling. This serves as an excellent way to involve the whole town in preserving our heritage.

When you attend one of our unveiling ceremonies, you take an active role in reliving the events we are preserving.

Our strong oral story telling tradition is highly featured, as stories about life in Dover are related. Many of this information would be lost without events such as these, which disseminates this information to the younger generation.

Each of the murals featured throughout our community help to preserve an important aspect of a rapidly changing way of life. With the paintings on display in public areas of our community, they are fully accessible to everyone.

Mr. A. Frank Willis was a talented Newfoundland singer, who's catchy and iconic storytelling has become a mainstay of the traditional Newfoundland music scene. We were honored to pay tribute to Newfoundland's "Entertainer Of The Year" during our Land and Sea visit. It was a privilege to have this incredible television show, film the work we have completed here in Dover.
